

# Reese Thompson

## Full Stack Software Developer & Designer

### Hello World!

I am a **full stack developer** and designer currently looking to work with an amazing company in the information technology field that offers a challenging work environment, promotes creative problem solving, encourages growth, and provides the opportunity for career advancement.

### Professional Experience

#### Red Hat

##### Senior Web Developer

Feb 2018 - Present

- Worked on digital marketing team, envisioning, designing, and implementing new and updated pages on RedHat.com
- Designed and developed new features by working closely with major stakeholders and bringing projects through full development cycles

#### Vail Resorts

##### Senior Software Developer

May 2015 - Feb 2017

- Specialized as software developer for multiple product lines, including web, iOS, and Android projects
- Acted as senior front-end developer, helping scope and design front-end architecture as well as manage and onboard contractors

#### Data Connect Corp

##### Front End Developer

Dec 2013 - May 2015

- Developed websites as sole front-end developer for product line consisting of over fifty client websites
- Helped redesign old architecture and implement new CMS that both improved user experience and cut development costs

#### Software Contractor

##### Design and Full Stack Developer

Dec 2011 - Present

- Worked on various projects in multiple roles, including full-stack and dev-ops roles. Please see LinkedIn for a full collection of contract work and roles
